

# 2018 AL Sauvignon Blanc, Monterey

**Tasting Notes:** We've got nothing against corks or bottles. They've served humanity well for hundreds of years. But the aluminum can- now that's the future! While the rest of the wine industry clings to their pomp and corkscrews, we have chosen a different path for our Monterey County Sauvignon Blanc, a path forged from light, clean, sustainable, infinitely recyclable aluminum. Yes... we've seen the future and it's cool, crisp, brisk and refreshing. It's elemental.  
Certified Sustainable (SIP)
