

# 2021 Wrath Pinot Noir, San Saba Vineyard

# Overview

Wrath represents a nexus of nature and an unbridled passion for winemaking. We produce site-driven Pinot Noir, Chardonnay, Syrah, Falanghina and Sauvignon Blanc from our estate vineyard and respected properties in the Santa Lucia Highlands. Our production is small, our distribution is limited and our wines reveal attitude, passion, and an inherent respect for what a vineyard can give us.

#### **Philosophy**

Our wines are a record of the topography, geology and climate of a finite, naturally defined piece of land over the span of a growing season. They chronicle the elaborate dance between terroir, grape, people and time. While all of our wines possess strong varietal characteristics, their real strength is their ability to deliver the unique aromatics, flavors and textures of a specific site.

# Vineyard

Our Estate San Saba Vineyard is set in a sheltered nook just below the Santa Lucia Highlands AVA. The estate consists of 72 acres of which 67.75 are planted to Chardonnay, Pinot Noir, Sauvignon Blanc, Syrah and Falanghina. This is a cool site with little rainfall and one of the longest growing seasons in the world. Our soils, Arroyo Gravelly Loam and Hanford Gravelly Sandy Loam, provide a low-vigor, well-draining, disease- and pest-free medium for our vines. They also impart a subtle mineral quality to our wines.

To preserve our local ecosystem, we have worked with viticultural consultant Steve McIntyre to develop a sustainable farming program, certified by the CCVT (Central Coast Vineyard Team), tailored to our estate. In addition to protecting the local environment, we believe it allows us to produce wines that are more authentic and specific to our terroir.

#### **Production Notes**

The 2021 vintage in Monterey began with colder than usual winter temps so budbreak happened later than early-mid February, which is the norm. However, summer temperatures were cooler than the usual so vines had a chance to ripen slowly and completely. All in all, it was one of the best growing seasons in several years and resulted in high quality fruit and slightly better than usual yields. Grapes for this bottling are sourced from only estate grown grapes, vine yields are closely managed and average about 3.5 to 4 tons to the acre. Hand harvested and hand sorted, the grapes are cold soaked for three days before inoculation. Clonal lots are kept separated in small open-top bins during fermentation and 20% of the bins go through whole cluster fermentation. Close monitoring ensures that production stages are implemented at optimal periods. The young wine is racked into an assortment of barrels, only French oak, from various tonnelleries for added complexity. This wine was barrel aged for 10 months. Only selected barrels were chosen for bottling and laying down for another 12 months of bottle aging before release.

### **Technical Data**

Composition 100% Pinot Noir Vineyard San Saba Vineyard

AVA Monterey

Clones 26% clone 828; 25% -Pommard 4; 25% -777; 14% - Swan

and 10%-115

Oak French oak, 25% new

Alcohol 14.3 Cases produced 392 SRP \$55
