

# Wrath

## 2023 Wrath Pinot Noir, Ex Vite

### Overview

Wrath represents a nexus of nature and an unbridled passion for winemaking. We produce site-driven Pinot Noir, Chardonnay, Syrah, Falanghina and Sauvignon Blanc from our estate vineyard and respected properties in the Santa Lucia Highlands. Our production is small, our distribution is limited and our wines reveal attitude, passion, and an inherent respect for what a vineyard can give us.

### Philosophy

Our wines are a record of the topography, geology and climate of a finite, naturally defined piece of land over the span of a growing season. They chronicle the elaborate dance between terroir, grape, people and time. While all of our wines possess strong varietal characteristics, their real strength is their ability to deliver the unique aromatics, flavors and textures of a specific site.

### Vineyard

Our Estate San Saba Vineyard is set in a sheltered nook just below the Santa Lucia Highlands AVA. The estate consists of 72 acres of which 67.75 are planted to Chardonnay, Pinot Noir, Sauvignon Blanc, Syrah and Falanghina. This is a cool site with little rainfall and one of the longest growing seasons in the world. Our soils, Arroyo Gravelly Loam and Hanford Gravelly Sandy Loam, provide a low-vigor, well-draining, disease- and pest-free medium for our vines. They also impart a subtle mineral quality to our wines.

To preserve our local ecosystem, we have worked with viticultural consultant Steve McIntyre to develop a sustainable farming program (SIP), certified by the CCVT, Central Coast Vineyard Team, tailored to our estate. In addition to protecting the local environment, we believe it allows us to produce wines that are more authentic and specific to our terroir.

### Production Notes

The name Ex Vite means “from the vine” in Latin. It's an appropriate moniker for a wine that utilizes 100% whole-clusters during the fermentation process. The 2023 vintage in California was a challenging year in some areas because of freezing temps during the time of fruit set and two heat streaks late summer. However, since our climate is consistently so cold, grape clones grown in our area took the cold in stride. Also, since our grapes are usually harvested a month later than Napa & Sonoma, the higher temps in late August only served to fully ripen grapes resulting in layers of rich flavors. Our grapes are handpicked and hand sorted. Clones are kept in separate lots during fermentation and barrel aging. Once fermented to dryness, lots are aged in an assortment of French oak barrels for added complexity. Wines are barrel aged for around 10 months before bottling. The bottled wine rests again for another 12 months before release.

### Technical Data

Composition	100% Pinot Noir
Vineyard	San Saba Vineyard
AVA	Monterey
Clones	clone 828 – 75%, 667-13% and 12% -115 clone
Oak	French oak, 25% new
Alcohol	14.2
Cases produced	79
Suggested Retail	\$39
